Greetings

By Diana Metrik,
Assistant Director

Hello everyone,
November is here, and we are expecting colder weather to come soon. We still will be spending time outside with the children. We are connected to "weather radio" 24 hours a day and it is part of the routine to have staff check the weather to find out if the weather conditions are favorable for outdoor play. With this in mind, please make sure your child comes to day care prepared to have a great time outdoors.

November Fun Facts

According to the Georgian calendar, November is the eleventh month of the year. November comes between the fall and winter months. The leaves are almost completely gone from the trees, and the rest have lost most of their color. The Anglo-Saxons referred to November as the 'wind month' and the 'blood month' - probably because this is the month they killed their animals for food.

November woods are bare and still;
November days are clear and bright;
Each noon burns up the morning's chill,
The morning's snow is gone by night..
